ABSTRACT

This report, covering 6,489 faculty in political science and government, is part of an annual national survey of faculty salaries. The survey is in two parts one covering public and one covering private four-year colleges and universities. Data for the 1995-96 baseline year and 1998-99 trend year were collected for full-time teaching faculty in 53 selected academic disciplines from 279 public and 386 private institutions. The first section of the report defines the methodology and terms used; this is followed by a data page listing average salaries for both public and private participating institutions by faculty rank (including a new assistant professor rank), faculty mix percent, and salary factors. A concluding section compares salary trend information for both public and private institutions for each of the 2 study years with trend information for all fields and with the Consumer Price Index. It notes that in 1995-96, average faculty salaries in public institutions were 0.03 percent higher than those for all ranks in all major fields; private institutions were 8.2 percent higher than average for the same period. In 1998-99 averages for public institutions were 0.4 percent higher, while averages for private institutions were 2.9 percent higher than average. Appended is a list of the 53 selected academic disciplines, as well as lists of the participating public and private colleges. (CH)

SALARY-TREND STUDY OF FACULTY IN
POLITICAL SCIENCE AND GOVERNMENT
FOR THE YEARS
1995-96 AND 1998-99

Foreword

by

Richard D. Howe
Appalachian State University
Boone, NC 28608

Since 1982-83 the College and University Personnel Association (CUPA) in Washington, DC, in cooperation with Appalachian State University in Boone, NC, have conducted annual national faculty salary surveys by discipline and rank each year through 1998-99. Two separate surveys are conducted each year, one for public senior colleges and universities and the other for private senior colleges and universities.

Salary data from the 1995-96 and 1998-99 surveys were collected and tabulated for full-time teaching faculty in 53 selected academic disciplines/major fields chosen from among those defined by A Classification of Instructional Programs, 1990.

Each of the 53 academic disciplines/major fields presents a summary of the overall average salary increase in that academic discipline/major field from the "baseline year" of 1995-96 to and including the "trend year" of 1998-99 for both public and private participating institutions. Of the 329 public institutions which participated in CUPA's public survey of 1995-96, 279 also participated in the 1998-99 survey. Data from those same 279 institutions were used in both the baseline year and the trend year studies. Of the 530 institutions which participated in CUPA's private survey of 1995-96, 386 also participated in the 1998-99 survey. Data from those same 386 institutions were used in both the baseline year and the trend year.

In addition to listing the average salaries in **Political Science and Government** for both public and private participating institutions by rank, including "new assistant professor," and listing the faculty mix percentage (FAC MIX PCT) and the salary factor, comparisons are made between the two public surveys and the two private surveys for each of the two study years (1995-96 and 1998-99) and with the CPI (Consumer Price index) of changes in cost-of-living.

The list of all 53 selected academic disciplines/major fields surveyed, including **Political Science and Government**, is found in appendix A, and the lists of all participating senior colleges and universities are found in appendixes B (public) and C (private) of this article.

SALARY-TREND STUDY OF FACULTY IN
POLITICAL SCIENCE AND GOVERNMENT
FOR THE YEARS
1995-96 AND 1998-99

by
Richard D. Howe

Since 1982-83 the College and University Personnel Association (CUPA) in Washington, D.C., in cooperation with Appalachian State University in Boone, North Carolina, has conducted two annual national faculty salary studies by discipline and rank through 1998-99: one for public senior colleges and universities, and the other for private senior colleges and universities.

Salary data for each study were collected and tabulated for full-time teaching faculty in 53 selected academic disciplines/major fields chosen from among those defined by A Classification of Instructional Programs *(CIP), 1990, including Political Science and Government. The CIP defines the discipline/major field of Political Science and Government as,

A group of instructional programs that describes the systematic study of political institutions and behavior. Includes instruction in political philosophy, political theory, comparative government and politics, political parties and interest groups, public opinion, political research methods, studies of the government and politics of specific countries, and studies of specific political institutions and processes.*

[*A Classification of Instructional Programs (Washington, D.C.: National Center for Education Statistics, [1990]. P. 147--45.1000).]

This article summarizes the overall average salary increases in the discipline/major field of Political Science and Government for both public and private institutions from the “baseline year” of 1995-96 to and including the “trend year” of 1998-99. Of the 329 institutions which participated in CUPA’s PUBLIC study of 1995-96, 279 also participated in 1998-99. Data from those same 279 institutions were used in both the baseline year and the trend year. Of the 530 institutions which par-

ticipated in CUPA's PRIVATE study of 1995-96, 386 also participated in 1998-99. Data from those same 386 institutions were used in both the baseline year and the trend year.

This article lists the average salaries for the discipline/major field of Political Science and Government for both public and private participating institutions by rank, including NEW ASST PROF (new assistant professor), the FAC MIX PCT (faculty mix percentage), and the SALARY FACTOR. Comparisons are also made using the CPI's (Consumer Price Index) changes in cost-of-living between the two studies for each of the two study years (1995-96 and 1998-99).

The CPI uses a base period of 1982-84 and measures/tabulates prices of food, clothing, shelter and fuels, transportation, medical care, entertainment and other goods and services people buy for day-to-day living. When examining trends in faculty salary, it is important to consider any changes in the purchasing power of salaries due to inflation. Comparing changes in the faculty salaries with the CPI gives one a more precise view of what "real" salary increases are, that is, buying power.

The salary is based on a nine- or 10-month academic year salary of full-time faculty, and does not include any faculty teaching less than 51 percent. Salary for summer academic work, fringe benefits, and perquisites are also not included in the salary data. The average salary is based on the study information with the assumption that all employees are full-time. The average salary displayed is an average of all faculty salaries reported for a given rank and discipline.

"NUM" refers to the number of faculty members whose salaries were included to compute the average salary.

"N/IN" refers to the number of institutions that reported salary data for a given academic rank and discipline/major field.

The FAC MIX PCT represents the percentage of faculty in a given discipline/major field who

hold a given academic rank. For example, a FAC MIX PCT factor of 29.3 for associate professors of Political Science and Government in the 1995-96 public study means that 29.3 percent of the faculty in that discipline/major field held the rank of associate professor.

The SALARY FACTOR for a given rank in a given discipline/major field represents the ratio of the average salary to the total average salary of all institutions in each of the four studies: PUBLIC 1995-96, PUBLIC 1998-99, PRIVATE 1995-96 and PRIVATE 1998-99. For example, a SALARY FACTOR of 0.96 for associate professors in the discipline/major field of Political Science and Government in the 1995-96 public study means that their average salary is four percent lower than the average salary for all associate professors in all institutions in that study.

NEW ASST PROF refers to the grouping of assistant professors hired for the first time in the fall of the study year (1995-96 or 1998-99). All information for this group was included in the ASST PROF group for reporting purposes.

ALL MAJOR FIELDS refers to the entire data base for all 53 disciplines/major fields in each of the four studies. Among other things, it is used to compare the discipline/major field of Political Science and Government with the entire data base for each study.

The reader will find the size of the sample on which each percentage or dollar value is based to be of particular importance. The smaller the number in the group, the greater the effect of extreme scores on a descriptive statistic such as the average. It should also be noted that any large disparity in the sample sizes between the "baseline year" of 1995-96 and the "trend year" of 1998-99 will lessen the reliability and validity of any conclusions that one might make based on a simple comparison of averages.

RESULTS OF THE TWO PUBLIC STUDIES: 1995-96 AND 1998-99

In the PUBLIC 1995-96 study in the above table, the discipline/major field of Political Science and Government was reported in 233 of the 279 public institutions. The average salary of the 2117 faculty was \$48,530. This average salary was approximately 0.03 percent lower than the average salary of \$48,543 for all 90,660 faculty in ALL MAJOR FIELDS in the same 1995-96 public study.

For the PUBLIC 1998-99 salary study in the above table, Political Science and Government was reported in 230 of the same 279 public institutions. The average salary of the 2,008 faculty was \$53,608. This average salary was approximately 0.4 percent higher than the average salary of \$53,370 for all 89,174 faculty in ALL MAJOR FIELDS in the 1998-99 public study.

The three-year increase in average salaries for all faculty in the discipline/major field of Political Science and Government in the public institutions studied was 10.5 percent (\$53,608 minus \$48,530 equals \$5,078). The CPI of increase cost-of-living between October 1995 and October 1998 was 6.7 percent. In comparison, with the CPI, there was a relative increase in Political Science and Government average faculty salaries over the three-year period by 3.8 percent or an average of 1.3 percent each year above the cost-of-living.

The increase in average salaries for all faculty in ALL MAJOR FIELDS over three years in the public institutions studied was 9.9 percent (\$53,370 minus \$48,543 equals \$4,827). In comparison to the discipline/major field of Political Science and Government (10.5%), the faculty in ALL MAJOR FIELDS received a relative increase in their salaries of .6 percent less than the faculty in the discipline/major field of Political Science and Government.

In the 1995-96 study the faculty mix percentage in Political Science and Government is higher at the professor rank than at the assistant professor rank: 39.2 percent vs. 28.7 percent; in the

1998-99 study it is 39.2 percent vs. 27.8 percent. The differences in faculty mix percentage at the ranks of professor and assistant professors in ALL MAJOR FIELDS for both public studies are 35.4 percent vs. 28.1 percent (1995-96) and 34.9 percent vs. 27.9 percent (1998-99).

Finally, the hiring rate of new assistant professors in Political Science and Government in the public studies was higher than the hiring rate of ALL MAJOR FIELDS in 1995-96, 5.3 percent (113/2,117) vs 4.6 percent (4,205/90,660) and higher in 1998-99, 5.1 percent (102/2,008) vs. 4.9 percent (4,386/89,174).

RESULTS OF THE TWO PRIVATE STUDIES: 1995-96 AND 1998-99

The PRIVATE 1995-96 salary study in the above table indicates that the discipline/major field of Political Science and Government was reported in 257 of the 386 private institutions. The average salary of the 1,176 faculty was \$50,040 an average salary 8.2 percent higher than the average salary of \$48,264 for all 43,114 faculty in ALL MAJOR FIELDS in the 1995-96 private study.

In the PRIVATE 1998-99 salary study in the above table, 253 of the same 386 private institutions reported Political Science and Government. The average salary of the 1,188 faculty was \$55,904, an average salary 2.9 percent higher than the average salary of \$54,316 for all 44,803 faculty in ALL MAJOR FIELDS in the 1998-99 private study.

The three-year increase in average salaries for all faculty in Political Science and Government in the private institutions studied was 11.7 percent (\$55,904 minus \$50,040 equals \$5,864). The CPI increased cost-of-living between October 1995 and October 1998 was 6.7 percent. A more realistic increase, therefore, in the average faculty salaries of Political Science and Government over the three-year time period, is 5.0 percent or 1.7 percent each year above the cost-of-living.

The three-year increase in average salaries for all faculty in ALL MAJOR FIELDS in the private institutions studied was 12.5 percent (\$54,316 minus \$48,264 equals \$6,052). In comparison to Political Science and Government (11.7%), the faculty in ALL MAJOR FIELDS increased their salaries 0.8 percent (13.2% minus 12.5% equals 3.5%) more than faculty in Political Science and Government.

For both studies in the discipline/major field of Political Science and Government, the faculty mix percentage is higher at the professor rank in comparison to the assistant professor rank: 40.5 percent vs. 28.0 percent (1995-96); and 40.5 percent vs 25.6 percent, (1998-99). The differences in the ranks of professor and assistant professor in ALL MAJOR FIELDS for both private studies are 33.5 percent vs. 30.5 percent (1995-96) and 34.4 percent vs. 29.3 percent (1998-99).

Finally, the hiring rate for new assistant professors in Political Science and Government was lower than the hiring rate in ALL MAJOR FIELDS in the 1995-96 private study: 4.3 percent (50/1176) vs. 4.7 percent (2,041/43,114) and lower in the 1998-99 private study: 3.6 percent (43/1,188) vs. 4.9 percent (2,178/44,803).

CONCLUSION

This article presents salary-trend information on the academic discipline/major field of Political Science and Government and compares that information with both ALL MAJOR FIELDS and the CPI over a period of three years, from the “baseline year” of 1995-96 through the “trend year” of 1998-99. Two studies--one for public institutions, and the other for private institutions--were conducted for the baseline year and for the trend year--a total of four studies. A total of 6,489 (2.4%) faculty in the discipline/major field of Political Science and Government participated and were included in the 53 disciplines/major fields in each of the four studies and in the overall total

of 267,751 participating faculty. The same 279 public institutions and the same 386 private institutions in the United States participated in the baseline year and in the trend year.

Although the public and private studies data may be interpreted in a variety of ways, several significant points are as follows. First, the average faculty salary factors in the discipline/major field of Political Science and Government for the 1995-96 public study was virtually the same as that of all ranks in ALL MAJOR FIELDS (1.00); and for the 1995-96 private study it was four percent higher than the average faculty salary factors for all ranks in ALL MAJOR FIELDS (1.00). In both the public and private studies the average faculty salary factors for all ranks in Political Science and Government in 1998-99 were exactly the same and three percent higher than the average salary factors for all ranks in ALL MAJOR FIELDS (1.00), respectively.

Second, the October 1998 CPI reflects an 6.7 percent increase over the October 1995 CPI and indicates that the faculty in Political Science and Government in the public institutions received an average annual salary increase of 1.3 percent above the cost-of-living. In the private institutions the annual average salary increase was 1.7 percent above the cost-of-living.

Third, in both the 1995-96 and 1998-99 public studies and the 1995-96 and 1998-99 private studies in Political Science and Government, the professor rank FAC MIX PCTs are higher than those for the assistant professor rank.

Finally, the hiring rate of new assistant professors in Political Science and Government in the 1995-96 and 1998-99 public studies were higher than the hiring rate of ALL MAJOR FIELDS. However, in the hiring rate for new assistant professors in the 1995-96 and 1998-99 private studies were lower than the hiring rate for ALL MAJOR FIELDS.

Because a significant data base of average faculty salaries in the academic discipline/major field of Political Science and Government has now been developed, it is anticipated that this infor-

mation will serve as a valuable reference and evaluation tool for interested administrators and professors.

Richard D. Howe is the originator and director of the annual CUPA faculty salary studies. He is a professor of leadership and educational studies at Appalachian State University, Boone, North Carolina.

APPENDIX C

CUPA Private Faculty Salary-Trend Studies: 1995-96 and 1998-99

Institutions Participating in Both Studies:

Abilene Christian University (TX)	Brown University (RI)
Adrian College (MI)	Bryant College (RI)
Agnes Scott College (GA)	Bryn Mawr College (PA)
Albertson College (ID)	Bucknell University (PA)
Albertus Magnus College (CT)	Buena Vista University (IA)
Albion College (MI)	Butler University (IN)
Albright College (PA)	Cabrini College (PA)
Alderson Broadbush College (WV)	Caldwell College (NJ)
Alfred University (NY)	California Baptist University (CA)
Allegheny College (PA)	Calvin College (MI)
Allentown College of Saint Francis De Sales (PA)	Campbellsville University (KY)
Alma College (MI)	Canisius College (NY)
Alvernia College (PA)	Capitol College (MD)
Alverno College (WI)	Cardinal Stritch College (WI)
American University, The (DC)	Carlow College (PA)
Amherst College (MA)	Carroll College (MT)
Anderson University (IN)	Case Western Reserve University (OH)
Anna Maria College (MA)	Catawba College (NC)
Ashland University (OH)	Catholic University of America, The (DC)
Assumption College (MA)	Cazenovia College (NY)
Aurora University (IL)	Cedarville College (OH)
Averett College (VA)	Centenary College of Louisiana (LA)
Avila College (MO)	Central Baptist College (AR)
Azusa Pacific University (CA)	Central College (IA)
Babson College (MA)	Central Methodist College (MO)
Baldwin-Wallace College (OH)	Chapman University (CA)
Barat College (IL)	Charleston Southern University (SC)
Barnard College (NY)	Christian Brothers University (TN)
Barry University (FL)	Christian Heritage College (CA)
Bastyr University (WA)	Cincinnati Bible College and Seminary (OH)
Baylor University (TX)	Claremont Graduate University (CA)
Beaver College (PA)	Clarke College (IA)
Bellarmino College (KY)	Clarkson College (NE)
Belmont Abbey College (NC)	Clarkson University (NY)
Belmont University (TN)	Clear Creek Baptist Bible College (KY)
Benedict College (SC)	Colby-Sawyer College (NH)
Bennett College (NC)	Colgate University (NY)
Bentley College (MA)	College Misericordia (PA)
Berea College (KY)	College of Mount Saint Joseph (OH)
Bethany College (KS)	College of New Rochelle (NY)
Bethany College (WV)	College of Notre Dame of Maryland (MD)
Bethel College (IN)	College of Our Lady of the Elms (MA)
Bethel College (KS)	College of Saint Catherine (MN)
Bethel College (MN)	College of Saint Elizabeth (NJ)
Biola University (CA)	College of Saint Mary (NE)
Birmingham-Southern College (AL)	College of Saint Rose (NY)
Bluefield College (VA)	College of Saint Scholastica (MN)
Bradley University (IL)	College of Santa Fe (NM)
Brandeis University (MA)	College of the Southwest (NM)
Briar Cliff College (IA)	Columbia International University (SC)

Concordia College-Moorhead (MN)
 Concordia University (CA)
 Concordia University-Wisconsin (WI)
 Converse College (SC)
 Cornerstone College and Grand Rapids Baptist
 Seminary (MI)
 Covenant College (GA)
 Creighton University (NE)
 Culver-Stockton College (MO)
 D'Youville College (NY)
 Dakota Wesleyan University (SD)
 Davidson College (NC)
